|--------------------|

8. LABEL

9. ROTATION DETECTOR (RD) SIGNAL

## I. OTHER SPECIFIED TESTING

The following is a general description of certain tests that are performed on representative SUNON fans. Nothing in this document is intended to suggest that these tests are performed on every model of SUNON fan

## II. CHARACTERISTIC DEFINITION

The following is a general description of certain tests that are performed on representative SUNON fans in order to determine the specifications of the fan. Nothing in this document is intended to suggest that these tests are performed on every model of SUN

## 7. INSULATION RESISTANCE

### 7.1. PLASTIC FRAME:

### III. NOTE

#### 1. SAFETY

- <

## 2. SPECIFICATION MODIFICATION

- 2.1. SUNON offers engineering assistance on fan installation and cooling system design.

- 3.5. This fan must be installed properly and securely. Improper mounting may cause harsh resonance, vibration, and noise.
- 3.6. Fan guards may prevent injury during handling or installation of the fan and are available for sale with this fan.
- 3.7. Unless otherwise noted, all testing of this

## V. FAN INSTALLATION INSTRUCTIONS

### 1. FAN INSTALLATION USING MACHINE SCREW

# Declaration of RoHS

## Control declaration of environment- related substances/ materials
